### AUSTRIAN RUSE FAILED TO FOOL ITALY'S SOLDIERS

Pretending Surrender Tents  
Marched Toward Line  
With Their Hands Up

### LINE WAS FOLLOWED BY HEAVILY ARMED TROOPS

Discovery of Ruse Resulted  
In Awful Slaughter From  
Italian Machine Guns

(ASSOCIATED PRESS TELEGRAM)

Italian Army Headquarters in Northern Italy, Tuesday, Nov. 20.—Going to points along the Piave river where the heaviest fighting has occurred, the Associated Press correspondent was told by officers of unusual circumstances connected with the engagements. The colonel commanding the Bersaglieri who carried the day, said the strategy which the Austrians attempted turned the tide against them.

In the fight on the cemetery road it was suddenly observed early Saturday morning that a number of Austrians were coming toward the Italian lines with both hands held up, as though ready to surrender. For a moment it was believed the fight was over and that the enemy had capitulated. But it was then noticed that all the Austrians machine guns had been removed and closer observation showed that behind this front line of men with their hands up followed lines with bayonets and machine guns.

The Italians let them come until the range was short and they were between two enfilading lines. Then a deadly fire was opened on both sides and the Austrians were mowed down in heaps. It was then that the route began. The Austrian resistance was broken. At Segna Mill, where the enemy had a brief lodgment, he was forced back until he was driven to the bank of the river and then into the water. The Austrians were bayoneted and killed or captured.

A colonel 18 miles further down the river told of a similar fight when the Austrians attempted to cross in boats from their positions near Calvechia.

"Our men are absolutely determined," he said. "Their determination to hold the river line is based on experience. You should have seen them yesterday when the Austrians tried to cross in boats right there," he added, pointing to the stretch where the river widens. "Our men remained silent while they saw the boats loading and going to midstream. Then they opened with (Continued on Page 2, Col. 1.)

### KIEV GOVERNOR AND STAFF QUIT POSTS; MOSCOW DUMA OUSTED

(ASSOCIATED PRESS TELEGRAM)

Petrograd, Tuesday, Nov. 20.—The military chief of the district of Kiev and the temporary governor with the staffs are reported to have left their posts. Ukrainian commissaries have been appointed to succeed them and their duty is to firm the independence of the Ukraine. Three hundred and sixty thousand Ukrainian troops are said to have been recalled from the front. This is commented upon here as meaning a serious crippling of the army and the possible opening of the front to the enemy.

The town duma of Moscow has been dissolved by the revolutionary war committee. Major Roudneff of Moscow is reported to be in hiding to escape threatened arrest. An armored train bound for Petrograd has been captured by detachments of sailors and returned to Moscow.

A breach in the workmen's and sailors' organizations throughout the country is threatened through the existence of two central committees, each claiming authority as the duly constituted body and denying the rights of the other. The new central committee appointed by the recent congress of workmen's and soldiers' delegates and which gave birth to the present governmental regime assumes to supersede another similar organization which dates back to the months immediately following the March revolution.

These bodies are currently referred to as the first and second central committees. The second central committee, it is announced today, purposes to assemble all the workmen's and soldiers' delegates who took no part in the last congress and to attempt to weld them into an organization which will fight the domination of the Bolsheviks. The leaders of the committee claim that out of nine hundred organized workmen's and soldiers' councils only approximately 100 participated in the last congress, among the abstainers being a very large majority of the army councils.

### PRIVATE GUARDS PROTECT DOCKS GERMANS BARRED

Soldiers Will Assume This  
Duty Later In Important  
Ports

### ENEMY ALIENS MOVED FROM 100-YARD ZONE

Violation of Order Will Result  
In Intermittent of  
Guilty Ones

(ASSOCIATED PRESS TELEGRAM)

Washington, Nov. 21.—Private guards went on duty at important docks and piers today on orders of Attorney General Gregory, under President Wilson's proclamation barring Germans from water fronts. They will be replaced shortly at the larger Atlantic ports by soldiers, but in the meantime all pier owners are instructed to supply their own watchmen and not allow unidentified persons to either enter or leave the wharves.

Department of justice officials said troops would not be used generally as guards. They probably will be employed at Boston, New York, Baltimore, Philadelphia, Newport News, Norfolk and a few other ports.

A movement of alien enemies from the 100 yard front barred zone was under way today, supervised by United States marshals, who had instructions to arrest and intern temporarily any Germans failing to comply or those acting suspiciously. Reports reached officials here of a number of Germans thrown out of employment in exporting offices, warehouses and railway terminals. Many of these have dependents and federal employment agencies (Continued on Page 2, Col. 5.)

### GERMANY BLAMES ENGLAND FOR FOOD FAMINE IN BELGIUM

(ASSOCIATED PRESS TELEGRAM)

Amsterdam, Nov. 21.—A telegram from the Wolff Bureau of Berlin, the semi-official German News Agency, received here, contradicts the statement by Herbert C. Hoover, American chairman of the commission for relief in Belgium, that the food shortage in Belgium was due to the submarines.

The agency says it is authorized to state that the existing arrangements prescribe that Belgian relief ships must avoid the danger zone if they do not wish to imperil themselves. At the beginning of the unrestricted submarine warfare, it continues, some of the relief ships disregarded this warning and consequently were sunk.

"When it was found we were in earnest," the statement goes on, "they heeded the warning but later, apparently under enemy pressure, they have again been encountered in forbidden waters. An example being the steamer Haeften. Her captain acting upon the British admiralty's orders destroyed his logbook prior to the seizure and from the logbook there is no doubt that an infraction of the rules could have been established."

"Therefore, if Belgian civilians starve it is because British selfishness drives the captains of relief vessels to seek only to disregard the rules made for their safety."

In a statement in Washington on November 19, Chairman Hoover declared that the scarcity of shipping and the delays consequent to submarine activities had been responsible for the Belgian food shortage. The Belgian relief steamer Haeften, from Montreal for Rotterdam, was taken into Swinemede by the Germans early this morning. The relief commission shortly afterwards requested the Dutch government to instruct its minister at Berlin to endeavor to secure the steamer's release.

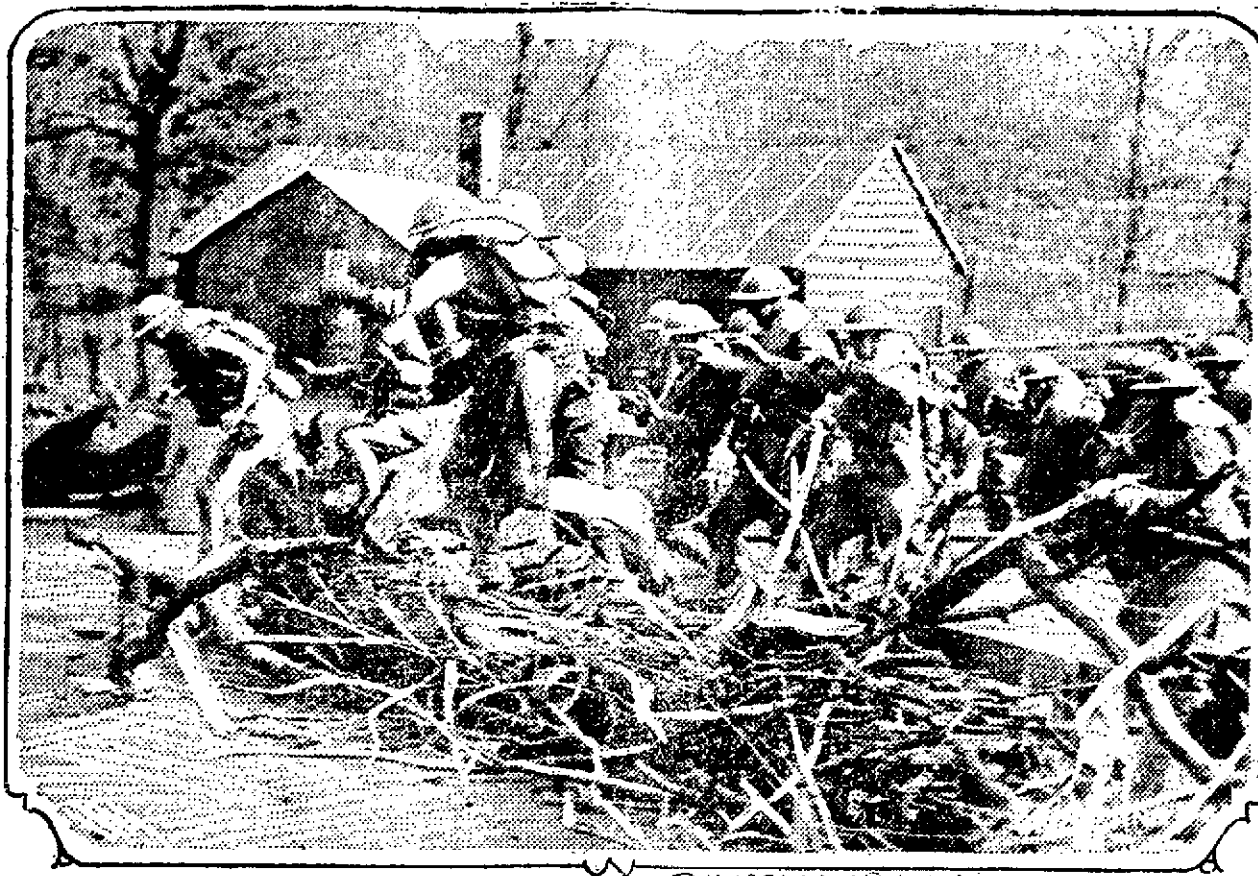

### GERMAN MINISTERS ARE CHANGED; ONE OPPOSED GOVERNMENT

Berlin (via London), Nov. 21.—Herr Schwander, minister of economics, has been relieved of office and awarded the Order of the Royal Crown, second-class, it is announced officially. Baron von Stin, under secretary of state, has been appointed to succeed him.

Herr Radowitz, formerly director of the press department, has been named under-secretary of state. Frederick von Payer, the vice-chancellor, has been made a member of the federal council.

An Amsterdam dispatch on Monday said, Herr Schwander had resigned a network of secret opposition of the bureaucrats.

### "SOMEWHERE IN THE UNITED STATES" STEEL HELMETED FIGHTING MEN CHARGE TO MEET THE FOE

Members of the Sixth field artillery, in steel helmets, charging over breastworks. This picture, showing the first troops on this side of the water to be equipped with steel helmets, was taken at one of the big cantonments a few days ago. The scene is extremely realistic and might well have been taken on one of the battlefields of Europe. It will be noted that the men are not carrying rifles. The artillery men are always armed with automatics.

### AMERICAN TROOPS AND AMERICAN SHIPS ARE NEEDED QUICKLY AS POSSIBLE--LLOYD-GEORGE

New York, Nov. 21.—American troops and American ships are needed by the allies, Premier Lloyd George informed the American mission now in England, at the first meeting of the Anglo-American war council.

An early increased supply of tonnage is necessary for the continued welfare of the allied cause, and the British prime minister is anxious to know how soon the first million American soldiers can be expected in France. Russia's collapse and the Teutonic success in Italy, Premier Lloyd George declared, "make it even more imperative than before that the United States should send as many troops as possible across the Atlantic as early as possible."

Pledging "nothing but war" as his policy, George Clemenceau has received the confidence of the French chamber of deputies in himself and his cabinet by a vote of 418 to 65. The new premier pledged his administration to a vigorous prosecution of the conflict and declared his war aim is to be victor. He would not agree to permit Germany to enter the society of nations because Germany's signature cannot be trusted.

With the Italians holding the Austro-Germans from Lake Garda to the Adriatic, Field Marshal Haig has carried out successful operations against the Germans from St. Quentin to the Scarpe, east of Arras, a front of more than 35 miles. He reports no details, but says the effort had satisfactory results. Prisoners were captured and much war material taken.

The British attacks were made on the roads from Bapaume and Peronne to Cambrai, Berlin reports, and the Germans were forced to give ground. Cambrai, the railroad cen-

### CHARGE GERMANS WITH CROOKEDNESS IN FOOD PURCHASES

(ASSOCIATED PRESS TELEGRAM)

Copenhagen, Nov. 21.—The makings of a German government scandal are contained in an article written by Dr. Heim, leader of the Bavarian peasant party, attacking high officials of the government purchasing and distributing agencies for private profiteering at the public expense. Discussing the sale of the Danube mercantile fleet, established by the central purchasing society for transporting grain and food products to the Bavarian Lloyd was given an extraordinary bargain. He charges also that Frick, Councillor Frisch, managing-director of the Central Purchasing Society, who negotiated the sale, has become a director of the steamship concern, as has a high Bavarian official.

Dr. Heim declared that six other high officials of the government purchasing agency are in the pay of large private concerns. The Central Purchasing Society is a government monopoly, established to purchase and import foodstuffs from abroad. The Bavarian Lloyd is a Danube shipping concern in which the Hamburg-Amerika line and the Bavarian-Royal house are interested.

### BERLIN EDITOR NOW ADMITS THE FOLLY OF BREAK WITH WILSON

(ASSOCIATED PRESS TELEGRAM)

Amsterdam, Nov. 21.—Theodor Wolff, in the Berliner Tageblatt, concludes a long article on France's reliance on America, by saying: "Inasmuch as France probably will be unable to tap fresh resources, Clemenceau, too, must pin his faith on America's aid. If hope on America did not exist then not only would there have been long since outbreaks of moral crisis in all the entente countries, but an unmistakable readiness in the dismantling of peace would prevail."

"It is now shown how foolish were the German arguments that America's entry into the war was immaterial and would not prolong the war."

### AMERICA SHUTS OFF SUPPLIES TO SLAV GOVERNMENT

Washington, Nov. 21.—Russia is cut off today from American supplies until there is a government at Petrograd with the Washington government properly recognized. American officials have been instructed to stop all Russian-bound exports abroad on the docks until there is a clear convincing indication of whose lands they will fall in.

### NO TYPHOID AMONG AMERICAN TROOPS HEALTH TABLE SHOWS

(ASSOCIATED PRESS TELEGRAM)

Washington, Nov. 21.—Health conditions among the American soldiers in France are shown in a table prepared at Surgeon General Gorgas office today based on reports for the week ending November 9. Following is the estimate of the per centage of cases of principal diseases per 1,000 men per year:

Pneumonia, 16.8; dysentery, 2.0; malaria, 1.0; venereal diseases, 131.5; typhoid, 0; paratyphoid, 0; measles, 21.7; meningitis, 1.0; scarlet fever, 1.9.

The non-effective rate per 1,000 for November 12—which is the number of men per thousand who on the day reported were excused from duty for any indisposition whatever—was 31.6.

Total deaths for the week ending Nov. 9 was eight, as follows: Pneumonia, 3; heart disease, 1; wounds received in action, 3; from accidental gunshot wounds, 1.

### ATTACK ON BURLESON BY SOCIALISTS WAS BLOCKED AT BUFFALO

(ASSOCIATED PRESS TELEGRAM)

Buffalo, Nov. 21.—An attempt by socialist delegates to single out Postmaster General Burleson for attack in connection with the suppression of certain newspapers has been blocked by the resolutions committee of the American Federation of Labor, although the committee has gone on record as stating that the section of the espionage law threatens unduly the restriction of a free press. Two resolutions protesting against the suppression of newspapers by the postmaster general's department have been before the committee. One of them was adversely reported yesterday and similar action will be taken on the other today, it was said.

The federation's position demanding freedom of the press, the chairman of the resolutions committee maintains already has been clearly defined.

Another socialist resolution slated for defeat, it was said, was transferred today from the resolutions committee to the committee on international affairs. The resolution expresses the willingness of the American Federation of Labor to be represented at a conference of international labor for the purpose of discussing "international relations and terms of peace."

The committee on resolutions favorably reported a resolution submitted by Florence Eberhardt of the National Federation of Federal Employees on Woman Suffrage. It reads:

"That we hereby affirm our previous declaration in behalf of woman suffrage and the people of equal pay for equal work regardless of sex."

The convention unanimously approved the committee's report.

New York, Nov. 21.—An unfurnished report of the death in Baden-Baden, Germany of Herman Slicker, one of the world's greatest coffee merchants, was received here today. Representatives of the coffee importing firm of which Mr. Slicker was formerly the head have requested the state department at Washington to investigate the truth of the report.

### BRITISH TANKS DESTROY BARBED WIRE, 5000 PRISONERS CAPTURED QUICKLY

Attacking Forces Now Hammering at Last Line of Defense of Famous Trench System Established Before "Strategic Retreat" Last Spring—Berlin War Office In Brief Statement Admits Serious Reverses—Much War Material Captured By Victorious Armies Under General Julian Byng

(ASSOCIATED PRESS TELEGRAM)

British Army Headquarters in France, Nov. 21.—The Germans are fighting on their last line of defense at one point of the British attack.

Nearly a score of guns appeared to have been captured. The British are pushing on toward Cantaing, three miles southwest of Cambrai. Northwest of Marcoing the high ground known as Premy Chappelle has been fought over and the Germans have been forced to withdraw.

London, Nov. 21.—The Hindenburg line has been broken to a depth of four to five miles, the war office announces. British troops stormed the first system of the Hindenburg line defenses of the whole front between St. Quentin and the Scarpe river.

The British infantry and tanks pressed on and captured the second system of defenses, over a mile beyond. The attack was begun yesterday by the third army. There was no artillery preparation and the Germans were taken completely by surprise.

The second system of German defenses captured by the British is known as the Hindenburg support line. The British captured Benavis, Lameau wood, La Vacquerie, the defenses known as Welsh ridge and Ribecourt village. Their operations are continuing.

Several thousand prisoners have been taken. The whole German line west of the Canal Du Nord to the Bapaume-Cambrai road has been captured.

The British also fought their way through Couillet wood. Lieutenant General Sir Julian Byng is in command of the attacking army.

The towns of Havrincourt, Marcoing, Graincourt and Anneux and Neuf wood have been captured by the British. A large number of tanks moved forward in advance of the infantry when the attack was opened and broke through successive belts of German wire defenses, which were of great depth and strength.

The number of prisoners taken thus far by the British is given at about 5,000 in a Reuter dispatch filed today at British headquarters.

The announcement follows: "Yesterday morning the third army, under command of General The Honorable Sir Julian Byng delivered a number of attacks between St. Quentin and the river Scarpe. These attacks were carried out without previous artillery preparation and in each case the enemy was completely surprised."

"Our troops have broken into the enemy's position to a depth of between four and five miles on a wide front and have captured several thousand prisoners with a number of guns. Our operations are continuing."

"At the hour of assault on the principal front of attack a large number of tanks moved forward in advance of the infantry and broke through successive belts of German wire which were of great depth and strength."

"Following through the gaps made by the tanks, English, Scottish and Irish regiments swept over the enemy's outpost and stormed the first defensive system of the Hindenburg line on the whole front."

"Our infantry and tanks then swept on in accordance with the program and captured the German second system of defense more than a mile beyond. This latter is known as the Hindenburg support line."

"In the course of this advance East Country troops took the hamlet of Benavis and Lameau wood after stiff fighting."

"English rifle regiments and light infantry captured La Vacquerie and the formidable defenses on the spur known as 'Welsh Ridge.' Other English county troops stormed the village of Ribecourt and fought their way through Couillet wood."

"Highland territorial battalions crossed the grand ravine and entered Flesquieres where fierce fighting took place. The West Riding territorials captured Havrincourt and the German trench systems north of the village, while the Ulster battalions, covering the latter's left flank, moved northwards up the west bank of the Canal Du Nord."

"Later in the morning our advance was continued and rapid progress was made at all points. English, Scottish, Irish and Welsh battalions secured the crossings on the canal at Manieres and captured Marcoing and Neuf wood."

"The West Riding troops who had taken Havrincourt made remarkable progress east of the Canal Du Nord, storming the villages of Graincourt and Anneux, and, with the Ulster troops operating to the west of the canal, carried the whole German line northward to the Bapaume-Cambrai road."

"West Lancashire territorials broke into the enemy's positions east of Ephey and Irish troops have captured important sections on the Hindenburg line between Ribecourt and Fontaine Les Croisilles."

"The number of prisoners, guns and material captured cannot yet be estimated. The spell of fine, dull weather which favored our preparations for our (Continued on Page 7, Col. 2.)

# LONDON EDITORS SAY ALLIES HAVE CONFIDENCE IN U. S.

(ASSOCIATED PRESS TELEGRAM)  
London, Nov. 21.—The Anglo-American war conference yesterday in Downing street is featured by the morning newspapers and is commented upon as an event of the highest importance. Much is said of the picturesque historical side of the meeting which occurred in the same room where the errors were made that drove the American colonies to separate from the motherland, but the practical aspects are given equal emphasis.

While Premier Lloyd George's statement on the needs of the allies receives attention, the point also is made that it is necessary for the allies to remember that the United States is not in the war solely or mainly for their benefit. Thus, the Post says:

"Americans know as well as we that they are in the war to protect themselves from a danger which seriously menaced them. They are business men over there strictly on business."

"The United States did not join the belligerents to save France or help Great Britain," says the Daily Express. "She is fighting the German of Kaiser Wilhelm for exactly the same reason that she fought the England of Lord North. Her individual and national freedom is at stake."

The Daily News on the other hand, dwells on the advent of the United States as a "bulwark of confidence" for the allies and says it has changed the character of the war and placed the issue beyond doubt. Following out this view it says that "if in the closing phases of the war she is the commanding figure, we shall have no envy and no regrets," and contends that this is so chiefly because America's entry is a spiritual fact "looking to the establishment of a new sort of peace—a peace founded upon the commonwealth of the world."

Hope is expressed that Americans will not become sentimental or allow themselves to be influenced by humanitarian considerations in waging war as "war is most cruel when most prolonged and the only policy is that of firmness. Hitherto on our side there has been too much parrying and too little striking."

machine guns and rifles. The boats and men were torn to pieces before they got another twenty feet. Not a man was left alive and all the boats sank. No, you may depend upon it, they will never pass."

The appearance of the men fully confirmed the colonel's estimate of their determination. They looked to be perfectly conditioned, with that fine calm and confidence which comes from high morale and sureness.

The officer gave the correspondent an opportunity to go along the defenses at this point, which are highly important as a part of the works encircling Venice. It was not a pleasant experience as shells were tearing the air and there was a steady rattle and bark from sharpshooters. Immediately along the west bank of the river ran a earthen breast work. It was a terrific tangle for the enemy to face if he ever got across.

From a loophole the Piave could be seen spreading out below with the Austrian lines on the eastern bank. The flash of the enemy's rifles came from windows of farmhouses and from the low bushes along the shore and the sound of their bullets showed they were striking very near.

Passing through Mestre, three miles from Venice, a heavy rumble of bombardment was heard from the fleet and the Venice coast batteries. Deep detonations could be distinguished about every five seconds and then the salvo of many guns, sounding like a broad side.

Further on the correspondent passed one of the royal palaces overlooking the Brenta canal which here is as wide as the Thames with a stately high bank. The king was not there, being at headquarters whence he makes daily visits to the front, moving about quietly and modestly.

The roads were no longer blocked with refugees. The civilians have recovered from their first panic. Many women and children just back of the Piave have been under a rain of shells. Officers said the Austrians

# BULO PASHA'S PARTNER IS ARRESTED IN ITALY

(ASSOCIATED PRESS TELEGRAM)  
Paris, Nov. 21.—Captain Bochor, who is investigating the Bullo Pasha affair, has received news that Signor Cavallini, an Italian and associate of Bullo, has been arrested in Italy. A woman friend of Cavallini also was taken into custody.

The Paris Matin on October 15, said that Signor Cavallini was the intermediary between Abbas Hilmi, former Khedive of Egypt, and Bullo Pasha. According to the newspaper, Cavallini went to a hotel in Paris in April, 1915, with two million francs. To a friend who accompanied him he introduced a man who came out of the hotel with him as Bullo Pasha.

# ASSIGN 60 SPEAKERS FOR ADDRESSES IN COUNTY DISTRICTS

With approximately 60 speakers on the program and 27 different meetings scheduled throughout the county tonight, it is expected to advance the cause of constructive patriotism in such measure as has never before been accomplished by any single movement heretofore inaugurated in Licking county.

For example, word comes to the management of the Y. M. C. A. fund from some of the townships of this county that the people there look upon the Y. M. C. A. work as some overgrown amusement scheme rather than one of the most important departments of our national war-time activities.

It should be impressed upon the public mind that the Y. M. C. A. is ministering to a need of such overshadowing importance that the general staffs of all the allied armies have appealed to the national war-work council to establish the work among their men.

The following assignments have been made: Appleton, Prof. C. D. Coons and Henry Deming; Brownsville, W. W. Gard and G. G. Barber; Homer, Rev. Mr. Bowen and Dr. C. L. Wyeth; Purity, Wilson Hawkins; Dr. R. C. Edwards and H. S. Newkirk; Etta, J. N. Pugh and H. J. Alexander; Mallsburg, Henry Ashcraft and Chas. E. Moore; Granville, Rev. L. Sparks and W. H. Lewis; Outville, Geo. Hamilton and W. M. Morgan; Croton, H. F. Moninger and J. M. Mitchell; Gratiot, J. J. Carroll and J. W. Fitzgibbon; Jersey, Ray Martin, A. E. Willert, C. H. Davis and J. R. # WAGEY FALLS FROM HEBRON BUILDING; SKULL IS FRACTURED

(Special to The Advocate.)  
Hebron, Nov. 21.—James Wagey, 25, of Kirkersville, employed by the Walker Hardware company, was probably fatally injured. Tuesday afternoon at 3 o'clock when he fell 25 feet from a building here.

He was employed in the erection of a new grain elevator to replace the one destroyed by fire last May. The scaffolding broke and he was thrown a distance of 25 feet.

Dr. Heaman was called to attend him and had him removed to Grant Hospital, Columbus, where the examination showed he had suffered a fractured skull. He is married and has several children.

# GERMANS FORCED TO LEAVE WASHINGTON

(ASSOCIATED PRESS TELEGRAM)  
Washington, Nov. 21.—Today is the last that the natives of Germany, who have not obtained their final naturalization papers and who have come to Washington since war was declared on April 6, may remain in this city. Germans whose residence at the national capital since the war declaration will have until November 25 to pack-up their things and go away.

After midnight tonight every German remaining here against these orders will be arrested and held for internment.

Police instructions today directed that ignorance of the president's proclamation will be no excuse for an alien enemy to delay complying with it.

# BURIED FATHER WEEK AGO MOTHER NOW SERIOUSLY ILL

Mr. and Mrs. J. H. Meador of this city were called to Jackson, O., today by the urgent illness of Mr. Meador's mother, Mrs. W. H. Meador, who suffered a stroke of paralysis Saturday.

Just week before last week, Mr. Meador's father, W. H. Meador died.

# CAMP SHERMAN BOYS GET INTO "MOVIES"; ALL WORK IS SHOWN

(ASSOCIATED PRESS TELEGRAM)  
Camp Sherman, Chillicothe, Nov. 21.—Relatives of selective service men training at Camp Sherman will have a chance to see what their boys are doing, how they drill, play, eat, and even how they sleep, without moving any further from their homes than the local "movie house."

Today a corps of moving picture photographers was busy at the camp shooting out reels of pictures which will be shown in theatres in various Ohio and Pennsylvania towns and cities.

Work was started today at General Glenn's headquarters, camera men standing by while the general from division headquarters dispatched messengers, issued orders, and generally directed the work of the early forty thousand men placed in his charge by the government.

The project, heartily sanctioned by the commanding officer, as a means of letting the people know the truth about conditions in camp so that they may see just what is being done, will include the picturing of everything that is done by the men during the day. Close and extended order drill, banquet tilts under the direction of Major Eric F. Wood, late of the British army, and in fact every activity participated in by the men preparing to serve in the front will be shown. Work will probably be completed and pictures will be ready for exhibition in a few weeks.

Many of the men will be allowed to go to their homes for Thanksgiving. It was announced from division headquarters today. Passes permitting absence from camp for 48 hours will be issued to about 25 per cent of the selectees and they will have opportunity to visit home folks, eat their Thanksgiving dinners with relatives and return the next day.

Private Douglas Darnell of Company A, 332d infantry, today was notified by the war department that he is to be commissioned first lieutenant in the ordnance department. Darnell, whose home is in Akron, is a balloon expert and will probably be detailed to this section of the ordnance department.

Discharge because of physical disability of two Akron men, George Anton, in the supply company, 332d infantry, and Joe Schielder, Co. M, 332d infantry, were granted today. Certain disabilities of the Amish Mennonite sect, whose members have refused to drill, work or even accept their pay at the base hospital, are here supposedly to try to convince them of the error of "bucking" the government. About half of the thirty who last Saturday refused to accept the government's pay today decided to throw aside religious scruples and were presented the money due them.

Orders came today for the transfer of two officers in the medical reserve at Camp Greenleaf, Oglethorpe, Ga. First Lieut. George M. Logue and Ralph E. Thompson will move immediately for training purposes to the southern camp.

John Martin, Eighth Co., Second Training Battalion, died here yesterday, following an attack of epilepsy. His home was in Alliance. Officers are confronted with a problem in connection with his death, as his relatives have requested that his body be interred here. Since there is no military cemetery here, and the closest burial place for soldiers is at the Columbus barracks, attempts are being made to have relatives care for the remains at Alliance.

# THIRD MEMBER OF KUSTER FAMILY IS SERVING COUNTRY

Robert Kuster, Commodore street; Willis Doyle, Rugg avenue, and Clyde Reed, East Main street, will leave Thursday for Cincinnati, for the final examination after enlisting in the navy.

The boys have enlisted in the radio department, and after spending several weeks at a naval training station they will be given a six months' course at Harvard to complete their training.

The enlistment of Robert Kuster, makes the third son to go from the family of Mr. and Mrs. J. S. Kuster of Commodore street, two boys—Karl and John Kuster—enlisted together in the ammunition motor train, and are now in camp at Camp Sheridan, Montgomery, Ala.

# GERMANS WARY OF AMERICANS; PATROLS STAY IN TRENCHES

(ASSOCIATED PRESS TELEGRAM)  
With the American Army in France, Tuesday, Nov. 20.—Only the fact that the Germans failed to venture into No Man's Land on a recent night saved them from an American surprise. One hundred and sixty men of a reserve battalion to enter the trenches for a week were given special training and, after being transported to the front, crawled across to No Man's Land and took positions in front of and in the German wire entanglements at a point where it had been discovered the enemy came out every night.

Each man had been trained in a special task and the entire unit had rehearsed the part it intended to play under conditions similar to that in front of the German lines. The Americans reached the position soon after dark and remained in waiting all night, but no one German appeared either there or, as far as is known, at any place in No Man's Land. The plan was to allow several groups of ten to fifteen Germans to emerge and meet at a rendezvous. Then the Americans would fall upon the enemy and repay them fully for recent trench raids.

A cold which a soldier caught in the trenches brought him a wound in the hand and gave warning to a German patrol of an ambush on another night. An American patrol had arranged an ambush near a shell ruined farmhouse in No Man's Land. Several of the Americans had colds and coughs, but managed to control them. Finally, when the shadowy forms of an enemy patrol were seen approaching, one of the Americans coughed. The enemy patrol promptly disappeared toward its own lines which were soon afterward came a hail of machine gun bullets, one hitting the man who had coughed.

Two staff officers recently had a narrow escape while walking along a road in the rear of the lines. They heard the whizz of an enemy shell and jumped, thinking it was close by, when the projectile came down in the center of the road on either side of which they were walking. The first American regimental colors to be carried on the battle front in France have been returned to regimental headquarters. Written on it in ink over the signature of the French commander is a certification that this was the first flag to reach the front lines. The flag did not fly at the front as no flags are exhibited there. It actually was carried, however, to a dugout in the rear of the second line, remaining there several days.

The enrollment of Germans elsewhere probably will be deferred for a week or two until the system can be worked out in the eastern cities where Germans abound and where the danger from alien enemies is greatest. The department of justice and the United States marshal for the District of Columbia have been besieged by appeals from Germans seeking exemption from the provision of the President's proclamation making the District of Columbia a barred zone. A number of Germans are employed as experts in government departments and it is understood department heads are seeking exemption for these. The department of justice reiterated however that no exemptions would be made.

# NINE JURORS ARE SECURED FOR TRIAL OF MRS. DE SAULLES

(ASSOCIATED PRESS TELEGRAM)  
Minneapolis, N. Y., Nov. 21.—Four of the twelve jurors who are to pass on the guilt or innocence of Mrs. Bianca de Saulles remained to be chosen when court convened today for the third day of her trial for the murder on August 3 of her divorced husband, John L. de Saulles, well known Yale footballer and New York clubman. The eight men selected to try the wealthy young, Chilean woman, with one exception, are more than fifty years of age, and all are the heads of families. If the defense continues to insist upon elderly family men for jurors, men of the same character as those already selected, it was expected that the greater part of today's session would be devoted to the selection of the four necessary to fill the jury box.

Harry Livingston, a railroad inspector, father of a family, was seated as the ninth juror.

There was an appreciable change in Mrs. de Saulles appearance and manner when she entered the court room. She walked briskly and seemed to have thrown off the apathy and indifference which characterized her attitude during the first two days of the trial. She evinced close interest in the proceedings as her counsel resumed the questioning of talesmen.

## See Difference In Wrinkles Overnight

"How to Transform Faces Involves Secrets Few People Know About," Says Valeska Suratt, the Movie Favorite.

BY VALESKA SURATT

WITH a few cents in money, and a few minutes of trouble, any woman may bring about a very remarkable change in her personal appearance. I know of many cases where a remarkable transformation occurred literally overnight. Any woman can try this simple wrinkle formula, making it up at home in a pint of water. The result is more economical than any of the creams you can buy at the stores. Get from your druggist two ounces of epinephrine for about fifty cents, and mix it with two tablespoonsful of glycerine in half a pint of water. This cream should be used liberally—only once a day on that, and it should be used every day. It is exceedingly effective on a woman's face, sagging flesh and deep lines in the face.

**DESIRABLE**—I made a week of you should notice a decided difference in the length of your hair, and an unusual glossiness and vigor by using my formula, as follows: Mix one ounce of beta-quinol with one pint of bay rum, or else a half pint of each of water and alcohol if preferred. It is not only. Rub into the hair every day with the fingers. I can assure you of splendid results. Yes, it is true—I am known as the only woman on the American stage who does not need to use hair makeups of any kind. I am a natural beauty, and my wealth and condition of my hair, and I know any woman can obtain the same result if she will merely make up her mind to do it, and do it. You will have no occasion for complaining about the masses of hair coming out on your comb, or poor, scaly hair and thin spots. Use this formula and you will very quickly see the enormous difference.

**MRS. R. E. S.**—It is rarely you find a drug store that hasn't the zinoquinol for the complexion or the beta-quinol for the hair, but if it should happen again that you can't get it, send the price, which is fifty cents for either of them, to my secretary, "Secretary to Valeska Suratt," Thompson Building, Chicago, and it will be sent to you by mail at once.

**PEPPER**—I told one of my friends the other day she could get rid of those blackheads in five minutes. She could hardly believe it. But at my suggestion she obtained some powdered norexin from her druggist for fifty cents, sprinkled some on a wet cloth and rubbed the blackheads with it. They all vanished. You can do the same.

**TRYING**—To see how this formula drives away all skin spots is certainly wonderful. You will be able to make your complexion remarkably clear in a very short time by using it. It is freely every day without fail. It is delightful, too. Get from your druggist one ounce of zinoquinol and simply mix with two tablespoonsful of glycerine and a pint of water. You can get the zinoquinol at any drug store.

**MRS. M. C.**—A teaspoonful of egg in half a cup of water makes the most unusual, delightful and thorough shampoo and hair conditioner. All fatty accumulations on the scalp dissolve away immediately, and it helps hair to grow.

## GRANVILLE

(Special to The Advocate)

Granville, Nov. 21.—People of Granville and vicinity appreciated the great privilege of having Bishop Anderson of the Methodist Episcopal church here, by turning out on mass to hear his lecture last evening on "Why We Are in the War," a powerful presentation of facts and an irresistible appeal for co-operation all along the line. The Methodist denomination has workers in all the warring countries, and the good they accomplish is incalculable. The lecture was free; the response to the speaker's appeal was even more free, as every response of people of this county to patriotic appeals is ever bound to be.

The patriotic concert of public school children in the Presbyterian church last evening seemed to touch the popular fancy, as the auditorium was packed even to the gallery. The little ones especially, received an ovation in their presentation of "A Cycle of Foreign Lands," in costume. First and second grade pupils in the garb of China, Japan, Holland and Scotland made a charming picture, and their songs were well rendered to the piano accompaniment by Miss Faye Hurlburt and the organ by Miss Eva Wright. Mrs. J. W. Rohrer, soprano, and Herbert Young, baritone, were the soloists, and the "Dixie quartet" was composed of these soloists with Prof. and Mrs. M. E. Stickney. The whole entertainment was of a high order of merit and was under direction of Miss Ruth Rockwood, a teacher in the school. Proceeds will start a fund for a school piano.

There are many home workers for the A. F. F. W. that whether the meetings on Tuesday are well or poorly attended, the supplies are not materially affected in quantity. At yesterday's meeting people came and went all day and the work, mostly in surgical supplies, was well up to

## DESTROYERS BRAVE PERILS OF KEIL TO GET AT SEA PATROL

Base of British Grand Fleet, Nov. 9.—(Correspondence of the Associated Press)—The recent naval action in the Cattergat, where the British sank a German cruiser and 10 armed patrol ships, is an example of the careful planning which lies behind every move on the naval chart.

A comparatively insignificant force of British destroyers and light cruisers were the actual stage performers in the little Shaggerak drama. The actual fight in Cattergat began about 7 o'clock in the morning and was over three hours later. The German fleet behind its fortifications received the call for help, but dared not take a chance—probably well knowing that any attempt to send out help would be confronted with enemies rising out of the sea from all directions.

The Cattergat is a deep bay lying between Denmark and Sweden, leading out through the Skagerrak into the North Sea near the scene of the famous Jutland battle. A fog lay over the entire Cattergat throughout the action and British destroyers picked off their victims one by one and sank them. The German auxiliary cruiser Marie, which was leading the fleet of patrol boats, was a ship of 3000 tons. Her captain, Herr Lauterbach, was wounded, but reached the Danish shore safely. His ship, which had four guns and a crew of 90 was "suddenly attacked," he said in an interview with a Danish newspaper man afterward, "by a fleet of British destroyers, and the shells fired by them descended with such rapidity that the men on the Marie were almost unable to use the guns. Only a few shots were fired before the ship was a mass of flames."

British and American naval men who have been on the China station in years past will remember Captain Lauterbach. He was known from Shanghai to Vladivostok as "Baron Manchhausen," and is said to have been the most unpopular German naval officer in the Far East. His unpopularity extended even to his own men and in the Cattergat battle the first remark made by a German bluejacket rescued from the sea was a fervent expressed hope that the British had not made the mistake of rescuing his captain.

Lauterbach's naval reputation will probably suffer somewhat from the Cattergat battle. His report that he fired his guns as long as possible is denied by his own men, who have charged Lauterbach with "sized with funk" and that not a single shot was fired from the Marie's guns.

Presumably the Marie was making her way towards the trade route between Norway and Scotland, in hope of repeating the successful German attack on the British envoy on October 17. The British commander concentrated on his first fire of all to the Marie and then detached his fast vessels to round-up the escorting vessels. This was a thorough done after a hunt lasting nearly three hours. This action, it should be remembered, occurred in waters which the Germans regard as practically one of their "inland seas." The Cattergat is the gateway to the Baltic. The scene of the fight is 500 miles from the nearest British coast, but less than 200 miles from Kiel. The Germans held their favorite "interior lines" while the British forces had to cross the North Sea, go up through the Skagerrak, and then around Shetland. The Germans had every chance to execute a coup, cutting off the retreat of the British forces by bringing superior units up the coast to the entrance of the Skagerrak. That they did not dare to attempt this is evidence of their appreciation of the initiative and resource of the British navy.

An interesting comparison might be made between this clean victory by the British destroyers and the tip-and-run raid by the German light cruisers on a British convoy on October 17.

The Germans sent out two of their fastest cruisers in the darkness, struck their blow in nervous haste in the early morning hours, not even pausing to rescue a single one of hundreds of combatants and non-combatants, then ran away northward to spend the remaining hours of daylight in hiding, and when night fell dashed down the Norwegian coast and thus returned home without being intercepted.

On the occasion of the British victory the fight occurred not in the North Sea, but on Germany's doorstep; not at night, but in daylight; not hurriedly or nervously, for 64 prisoners were taken, drowning men rescued from the water, thus providing another vivid contrast between German and British methods of warfare. Moreover, no non-combatant lives were lost or endangered in the British action, whereas the German ruthlessly and unnecessarily sacrificed scores of innocent neutrals.

The return of the British squadron to its base was quiet and uneventful. By nightfall they were off again on their business of sweeping the sea.

The crew of the fleet into the Cattergat and the little victory which the British navy won there without the loss of a single life, while not largely important in itself, is a concrete illustration and proof of the manner in which the allied fleets control the seas and enable the allied governments to use their resources in full strength on the various fronts.

**Common Pleas Notes.**  
In the case of Henry D. Wirtch vs. Elias P. Wirtch et al., a suit brought for the partition of certain real estate in this county, the sale has been made by the sheriff. The court found the proceedings in all respects regular, and they were confirmed. A deed was ordered made and distribution of the proceeds of the sale. Grace Cupps vs. Floyd J. Cupps. Decree of divorce granted.

The court and a jury took up the trial, Wednesday, of the case of the State of Ohio vs. Sanford Black. The state charges that on the 13th of June, this year, the defendant set fire to the house in which he was living at Hebron, the property of Andrew J. Duncan.

**Juvenile Court.**  
Nine young lads, ranging in years from 14 to 17, were in juvenile court today on a charge of destroying property and for insolence to an elderly man. The boys undertook to make life miserable for a colored family residing in "Texas," and threw stones through the windows, breaking a number of panes of glass. They were ordered to repair the damages, given a severe lecture by the court, and informed that a reputation of their conduct might lead them in the industrial school at Lancaster.

**Married by Justice Jones.**  
Benedict C. Young and Miss Margie Spicer, both of Burlington township, were united in marriage by Justice D. M. Jones in his office, South Third street. They will reside on a farm.

**Married by Justice Scott.**  
John Cunningham and Miss Fern Myers of Homer, O., were married yesterday by Justice Fletcher S. Scott, in his office, South Third street. The young people will reside in Homer.

## HELP THE CHILDREN OF NEWARK

This week and next week the annual Thanksgiving collection for worthy poor children is being taken in the public school rooms of the city. Last year this free will offering amounted to more than \$250.00, every cent of which is used by the attendance officer, Mr. Handel, to purchase shoes and other clothing for worthy children. Parents who are able to do so are requested to give their children small amounts for this offering. Contributions

from either citizens or organizations in the city to this fund will be appreciated. Every cent contributed helps to keep some child in school, and there is no loss by having to pay salaries as Mr. Handel is in the regular employment of the Board of Education. There is no more worthy charity cause in the whole city. Mr. Handel visits the homes of the children and knows their need before aid is given. (Signed) Wilson Hawkins, Supt. of Schools.

## ORGANIZED LABOR ENDORSES SCHOOL GARDEN EFFORTS

At a recent meeting of the Newark Trades and Labor Council, the introduction of agriculture and school gardening into the public schools was endorsed, and a committee of three was appointed to confer with the board of education, and a plan of helpful cooperation. T. O. Satter is chairman of this committee, and his letter to the superintendent follows: Mr. Wilson Hawkins, Supt. of Schools, Newark, Ohio.

Dear Sir:—In reply to your letter of October 26th, I am pleased to inform you that the Trades Council has some on record as endorsing the children's gardening plan which Mr. Hopp carried out so successfully last season. The council and organized labor take great pleasure in promoting the welfare of the community in which they live, and we as a committee of three have been appointed with full power to act. Hoping this may be satisfactory to you, and being ready to meet and talk this matter over at any time to see what we may agree upon, I am, Yours respectfully,

T. O. Satter, chairman. The superintendent read this letter at the meeting of the Board of Education, last evening. The board members are greatly pleased with this action of the trades council, and desire the superintendent to arrange a meeting with the committee at an early date.

It may be stated here that Prof. Hopp has already started his plans for next year. He has secured several additional plots of ground, and is having them plowed and fertilized. The Chamber of Commerce has voted \$100 for seed, the Rotary club \$25 for prizes, the Licking Creamery company and William Burke are also offering prize money. With the cooperation and aid of organized labor in this movement, the community is practically unified and Newark will probably lead other cities next year in school garden and agriculture work.

Motor Boats Taxed.  
All power pleasure boats or motor boats are taxable under the Act of Congress of October 3, 1917. Motor boats of less than five tons are taxed at the rate of \$5.00 per year. The tax due at the present time on such boats is \$3.75. This tax must be paid in November or a penalty of 50 per cent will be incurred. Those interested should apply for information to B. E. Williamson, Collector, Columbus.

Library Association.  
A meeting of the Library association will be held Thursday afternoon at 2 o'clock at Taylor Hall.

Aids Crippled Girl.  
The appeal of a Columbus girl, terribly maimed but not discontented, reached a Newark man through a story in the State Journal yesterday. This morning's issue of the same paper says C. H. Wesson of the firm of Jones & Wesson, sent \$5 for the fund to purchase the girl an artificial leg. She was crippled while picking up coal in the railroad yards. She has ambitions to make the best garden in Michigan avenue next year, she says.

Rabbits Are Scarce.  
There were a few rabbits on the market today and they were selling at 40 cents each. Last year at this time they sold for 25 cents, and only a short time before that at 15 cents. Hunters state that they are scarce in Licking county, but other counties report them very numerous.

Will Go South.  
Mr. and Mrs. Harry Miller of Croton, O., were visitors in the city today. Mr. Miller will leave shortly

for a trip south and will hunt wild ducks along the Louisiana coast. He will be joined later and they will cruise to Florida to spend the winter.

Today's Police Court.  
Tim Sullivan and John Crosby were taken in tow by a couple of kind-hearted patrolmen last evening and locked up for safe-keeping and this morning answered a charge of intoxication. Tim was fined \$5 and costs and sent to the county jail, while John drew \$8 and was ordered back to the city prison.

Case Dismissed.  
Roy and Cash West, charged with an assault on Albert Demer, were in police court today and after hearing the evidence against them Mayor R. C. Bigbee dismissed the charges.

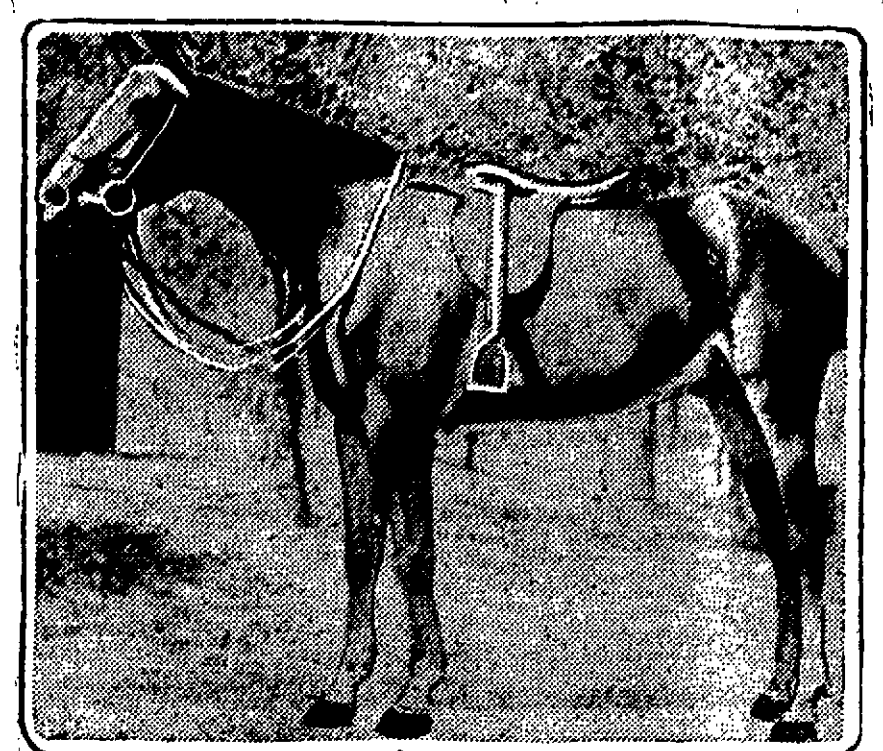

Charged With Drunkenness.  
Maud Renfrew was in police court today on a charge of drunk and disorderly. It is claimed that she was jealous of another woman and raised a disturbance. Her case was continued until 7 o'clock this evening when it will be heard by Mayor R. C. Bigbee.

Case Continued.  
The case against George Moore, charged with securing \$38 worth of paints and oils at the Crane-Krieg hardware store under false pretense, was continued until December 8.

Birth Announcement.  
Announcement is made by Mr. and Mrs. Claude Drone of East street of the birth of a daughter, Margaret Olive. 11-19-31\*

Court House Will Close.  
A resolution was adopted today by the commissioners of Licking county, that the offices of the court house be closed Thursday afternoon from 2 to 3 o'clock, out of respect for O. C. Martin, deceased, and that the officials, deputies and clerks may attend the funeral. J. E. McCracken, J. C. Butt, C. D. Lake.

## PRESIDENT WILSON'S NEWEST SADDLE HORSE IS BELIEVED TO BE HIS BEST

The president's new saddle horse, "Democrat."

President Wilson does considerable horseback riding in cold weather, and is getting to be quite an expert equestrian. His latest acquisition, "Democrat," it is said will prove to be the best of all the many horses he has ridden since he became president.

## PROMPT REPLY TO QUESTIONNAIRE IS IMPERATIVE SAY NEW DRAFT RULES

The local draft board has received orders from Adjutant General Geo. H. Wood regarding the classification of registrants who have not been inducted into military service and which will begin in a very short time.

The number of such men for Newark city is 2,319. All these men when receiving the questionnaire, which will be sent them by the board, must make prompt reply. Under no circumstances will a registrant receive more than one copy and a prompt reply must be returned, seven days being the limit. If not returned to the board by that date all registrants receiving same will be placed on the eligible list for army service.

The legal advisory board will be fully organized by the time questionnaires are sent out and registrants can call upon any member to assist them in filling out the blanks and no charges will be made.

## GENERAL PERSHING SAW THE BRITISH TROOPS PUT OVER GREATEST ATTACK

(Continued from Page 1.)  
attack broke yesterday, a heavy rain fell during the night and the weather is now stormy."

GENERAL PERSHING WATCHED ADVANCE  
British Army Headquarters in France, Nov. 21.—General John J. Pershing, commander of the American forces in France, was present at the British headquarters as the guest of Field Marshal Haig, the British commander, to witness the British offensive. The American commander followed the novel battle with the deepest interest.

GERMANS ADMIT REVERSES  
Berlin, Nov. 21, Via London.—German reserved checked the British in the rear positions after ground had been gained by the attackers, says today's official communication. The loss is announced of Marcping, Graincourt and portions of the permanently established works.

(Associated Press Telegram)  
New York, Nov. 21.—Field Marshal Haig has sprung a surprise on the Germans in northern France, attacking suddenly on a front of more than thirty miles and breaking the famous Hindenburg line to a maximum depth of nearly five miles. His troops are still fighting their way forward in the most spectacular offensive of the war on the western front since the French lines were established.

The blow was struck without warning no artillery preparation preceding it. The British tanks in great number smashed their way through the formidable German wire entanglements, plunging a road for the infantry which swarmed irresistibly forward.

Village after village fell into their hands as Haig's troops pressed on, until at Marcping and at Anneux, on the Bapaume-Cambrai, the important German base and important railway junction, which apparently is the British objective.

Several thousand prisoners have been taken by the British as well as large quantities of war material. The attack was carried out in unfavorable atmospheric conditions and the weather has since grown stormy.

Berlin admits important advances by the British, conceding the capture of Marcping and Graincourt, in the field of Haig's thrust, but says the attackers were checked after ground had been gained.

From St. Quentin to the Scarpe is thirty-two miles.

The British drive covers a part of the field of last year's offensive on the Somme and the section of the Arras battle front south of Arras. The British thrust in this thrust is nearly opposite Cambrai, the important German base and railway center, from which the British line on the Bapaume-Cambrai road was about nine miles distant as it had stood for several months past. The main force of the push just launched is apparently aimed at Cambrai along this road.

What is known as the Hindenburg line was established by the German command last spring when the famous "strategic retreat" on the Somme front was carried out. It was a supposedly impregnable barrier, which had been in careful preparation. The British and French, however, showed in the Arras battle last spring and in the French drive on the Aisne front that the line was by no means a bar to their progress and serious inroads were made upon it in various attacks on both these fronts. No definite break however sufficient to permit the penetration of a large force which could debouch for large field operations had ever been effected.

The British movement in its early phases gives the appearance of being the most ambitious that has been undertaken by them on the western front since the creation of their new armies gave their power to strike effective blows. The attack came almost without warning, the only premonitory symptoms being a series of somewhat elaborate trench raids. Even then rather extensive operations in this sector reported last night by the British war office,

it had taken measures to meet, gave hardly a hint that a push in any such force or over such a wide extent of front was in prospect.

There has been little speculation over the possibility of a British attack in force in the western front this fall in any area other than that of Flanders, where the main British effort for several months past has been expended.

Even here the lateness of the season and the difficult nature of the ground, at this time of year particularly, seemed to give little basis for expectation of anything more than local strokes here and there.

It has been apparent, however, that German attention was largely centered on the Italian front where the military move in force intended to crush Italy is now in full swing. Admittedly numbers of German troops had been sent to the Italian front but the assumption has been that these had been largely drawn from the Russian front where the collapse of the Russian military machine had made it unnecessary for the Germans to maintain much more than trench garrisons. It is considered possible however that the British secret service had knowledge of a weakening of the German front in the west by the withdrawal of highly trained, experienced troops to give backbone to the push in northern Italy, an opportunity thus being afforded to catch the Germans unaware and hit them a crushing blow while their strategic reserve in the Franco-Belgian war area was depleted.

The element of surprise, the reports reveal, was a large factor in the initial British success as contrary to the almost invariable rule in this war there was no advance preparation by the British artillery, the troops just going "over the top" and falling upon the enemy apparently without any expectation that he was about to be attacked.

FRENCH MAKE RAIDS.  
(Associated Press Telegram)  
Paris, Nov. 21.—"During the night we made several successful incursions into the German lines north and south of St. Quentin and brought back prisoners," says today's statement. "Toward the end of the night the artillery duel became very violent in the region of Chaume wood. There is nothing to report elsewhere."

MARRIED WOMEN GET VOTE.  
(Associated Press Telegram)  
London, Nov. 21.—Only married women whose husbands also are entitled to the municipal franchise, are affected by the unanimous decision of the house of commons yesterday to extend the municipal vote to women. The women must, as in the case of those having the parliamentary franchise have reached the age of thirty years.

DANISH SHIP SUNK.  
(Associated Press Telegram)  
London, Nov. 21.—The sinking by a German submarine of the Danish steamship Adolph Anderson, 391 tons gross is reported in an exchange telegraph dispatch from Copenhagen. One man is said to have been killed.

## MEDICAL OFFICER IS KILLED; ANOTHER HURT

(Associated Press Telegram)  
Washington, Nov. 21.—General Pershing today reported the death of First Lieut. Orlando Gochnaur, medical officer, reserve corps, attached to the British forces, killed in action November 6. Lieutenant Gochnaur's next kin is given as Mrs. F. A. Gochnaur, Freeport, Ill. First Lieut. Alexander J. Gillis, also of the medical reserve corps and attached to the British army, was slightly wounded the same day.

## BERLIN'S ANNOUNCEMENT COMES A LITTLE BIT LATE

(Associated Press Telegram)  
Berlin, Nov. 21. Via Amsterdam to London.—An official statement by the admiralty today says:

"A German submarine under command of Lieutenant Wendlandt destroyed a British monitor and a destroyer off the Syrian coast on November 11."

The British admiralty on Nov. 14, announced the sinking of a British destroyer and a small monitor by an enemy submarine while the British craft were co-operating with the British army in Palestine. Thirty-three men were reported missing from the two vessels.

## NEW CLEVELAND BRIDGE IS OPENED TO TRAFFIC

(Associated Press Telegram)  
Cleveland, Nov. 21.—Cleveland's new \$5,000,000 high level bridge over the Cuyahoga river, connecting Superior avenue on the east with Detroit avenue on the west side, was opened to vehicle and pedestrian travel this morning. The lowest deck, to be used for street cars, is not yet ready. The bridge has been building three years.

HOSPITAL BOARD MEETING.  
A joint meeting of the Lady Board of Managers and the hospital trustees will be held at the Y. M. C. A. Thursday evening, Nov. 22, 1917 at 7 o'clock.

DEATH OF INFANT.  
The infant son of Mr. and Mrs. William Maddicks of 286 Beech street died at the home of the parents this morning. Burial was made this afternoon in Cedar Hill cemetery.

CONSERVING FUEL.  
(Associated Press Telegram)  
Copenhagen, Nov. 21.—All concerts, lectures and public meetings in Munich, Bavaria, have been prohibited between December 1 and mid-February. This action is taken because of the fuel shortage which is steadily becoming worse.

## TO RESIST THE ATTACK

of the germs of many diseases, such as Grip, Malaria, means for all of us—fight or die. These germs are everywhere in the air we breathe. The odds are in favor of the germs, if the liver is inactive and the blood impure.

What is needed most is an increase in the germ-fighting strength. To do this successfully you need to put on healthy flesh, rouse the liver to vigorous action, so it will throw off these germs, and purify the blood so that there will be no "weak spot," or soil for germ-growth.

We claim for Dr. Pierce's Golden Medical Discovery that it does all we say in a way peculiar to itself.

It cures troubles caused by torpid liver or impure blood.

HARRIS STATION, OHIO.—"During part of October and November last I was very much out of vigor and strength. Excessive duties had reduced my vitality until I could scarcely do my chores, much less the labor so much needed on the place. I was nervous, dizzy and weak, had pain in back and hip, general soreness of the muscles, etc., but I felt certain it was only a run-down condition and I knew the effective qualities of Doctor Pierce's Golden Medical Discovery Tablets so I got a small box and took them, getting quick and wonderful relief. I got the second box at my drug store but did not use all of it because I did not feel the need. Now I can work with ease and pleasure. I most heartily and cheerfully recommend the 'Discovery.'—W. A. ROBERTS, R. F. D. 1.

REYNOLDSBURG, OHIO.—"We have used Doctor Pierce's medicines in our family for over forty years and found them very satisfactory for all troubles for which they are recommended. We have found Doctor Pierce's Pleasant Peppermint one of the best things to regulate the bowels."—L. W. TUSING.

## REMOVE THICKENED MUCUS OPEN NOSE, STOP CATARRH

Do It By Using Nostril Balm or By Taking a "Liquid Nostril Balm and Throat Vapor-Spray"

Here is an easy, simple way to treat Colds, Nasal Catarrh, Sore Throat, Tonsillitis, Bronchitis and Mucous Membrane Irritation. You can get NOSTRIL BALM in either Balm or Liquid form. Liquid Nostril Balm, when applied to nostrils by the use of special "Nostril Atomizer Outfit," creates a very fine vapor which, when breathed into nostrils, reaches the remote parts of post-nasal cavities, coating membrane with an oily antiseptic film. This protects the mucous membrane and at the same time cleanses and soothes the irritated sensitive parts, relieving distress. Nostril Balm is fine for local application to soften membrane, open nostrils, break a cold and stop nasal catarrh. Price of Balm 25c per tube. Special Nostril Atomizer Outfit, including enough Liquid for 60 days' treatment, price \$1.00. Liquid Nostril Balm, independent of Atomizer Outfit, two oz. bottle, price 50 cents. All druggists have Nostril Balm or Liquid.—Advertisement.
